## Summary

Aspiring Software Developer with strong skills in Java, Python and JavaScript, and a solid foundation in Full Stack Web Development. Experienced in building responsive web applications using modern frontend technologies. Proficient in object-oriented programming, problem-solving, and debugging, with a commitment to continuous learning and effective team collaboration.

## Experience

### Frontend Development Intern at TechieHelp | Aug 2025 – Sep 2025

Completed a one-month internship focused on front-end development using HTML, CSS, and JavaScript. Built responsive pages and interactive UI components through practical project work.

## Projects

### 1.A Full-Stack Blogging Platform | [github](#) | [Live link](#)

Tech Stack: Java, PostgreSQL, Thymeleaf, HTML, CSS, JavaScript

Developed a multi-user blogging platform where authors can create, edit, and publish rich-media articles. Implemented secure authentication with role-based access and added features like comments, likes, pagination, and image uploads with a responsive UI.

### 2.Hospital Management System | [github](#)

Tech Stack: Java, SQL, HTML, CSS

Developed a desktop-based application to manage patient records, doctor details, appointments, and billing. Implemented user-friendly forms and database connectivity to perform CRUD operations efficiently and reduce manual hospital record work.

### 3.iPhone Sales Insights with Machine Learning | [github](#)

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib

Built a data analysis and ML project to study iPhone sales trends and predict future sales patterns. Used data preprocessing, visualization, and machine learning models to generate insights for business decision-making.

### 4.Chatbot Application | [github](#)

Tech Stack: HTML, CSS, JavaScript, React.js, PostgreSQL

Created a web-based chatbot interface for interactive user conversations. Implemented frontend using React and connected it to a backend with PostgreSQL to store and retrieve chat data securely.

## Certifications

**1.Full Stack Java Development – Udemy | Dec 2024:** Completed 84.5-hour course on Java, JSP, Spring, Spring Boot, JavaScript, and React with hands-on full-stack full-stack development experience.

### 2.Data Science and Machine Learning with Python - UdemyS | June 2025:

Completed an internship in Data Science and Machine Learning with a focus on practical learning and professional growth.

**3.Web Development Training – Internshala | Nov 2023:** Completed 8-week online training covering HTML, CSS, Bootstrap, DBMS, PHP, JavaScript, and React with practical project work.

## Technical skills

### Programming Languages :

Java, Python , JavaScript

### Framework & Libraries :

SpringBoot,Pandas,NumPy, Matplotlib, scikit-learn, Plotly

### Frontend Development :

HTML, CSS, React.js

### Backend Development :

Node.js, Express.js

### Database:

MySQL, PostgreSQL

### Version Control : Git, GitHub

### Data structure and Algorithm

## Soft skills

1. Leadership Qualities
2. Team Management
3. Good Communication
4. Decision-making
5. Problem solving mindset
6. Critical thinking
7. Stress-handling ability

## Education

Jawaharlal Darda Institute of Engineering and Technology (JDIET), Yavatmal  
B.E. in Computer Science and Engineering

Percentage: **71.42%** (Up to 6th Sem)  
Expected Graduation: **2026**

Abhyasa Junior College, Yavatmal  
Class XII (State Board) – **87.83%**

Dr. Nandurkar Vidyalaya, Yavatmal  
Class X (State Board) – **95.80%**
